Attorney General John Ashcroft

Washington, DC 20530

Dear Mr. Ashcroft:

I have been following the Microsoft antitrust case in the papers and media and I think it is time to come to a settlement. Microsoft has met all , and more, of the competitors demands.

We should meet the simple request of Microsoft to have the settlement approved, so Microsoft can go back to the business of innovating.

I appreciate your efforts to have the Microsoft approved by the Court as in the best interest of the American public.

Thank you for your attention to this matter.
